

Sandhurst Instruments Ltd

Dip Meters

FEATURES

- ➔ Tape Lengths 15m, 30m, 50m, 100m, 200m and up to 500 metres upon request
- ➔ Tapes Metric graduated tapes marked their entire length in centimetres
- ➔ Conductors Stainless steel ensuring little or no stretch
- ➔ Potentiometer An internal adjustable potentiometer gives sensitivity control, often required where saline conditions occur.
- ➔ Borehole Probes Due to their diameter, these make ideal basic measuring devices.
